FRONT-END DEVELOPER

Career Objective

Motivated and accomplished Computer Science graduate, passionate about web development and dedicated to crafting user-friendly, responsive, and interactive websites. Eagerly seeking a challenging Web Developer position to leverage my comprehensive technical skills, acquired through a master' in computer science and rigorous training in online bootcamps and Udemy courses. Over the past two years, post-master's degree completion, I have committed myself to continuous learning and hands-on application in web development. My solid foundation in computer science, coupled with specialized web development, training, positions me as an ideal candidate for a Junior Developer role. With nearly two years of experience as a technical support officer, I have honed critical thinking and problem-solving skills that complement my technical expertise.

Technical Skills:

- **Proficient with:** HTML5, CSS3, SCSS, JavaScript, React, Redux, JSON, Context API, DOM, AJAX, Git, NPM, Yarn, RESTful APIs, Firebase, VS code, Git Hub, Sublime text.
- **Familiar with:** Bootstrap, TypeScript, MySQL, MongoDB, NodeJS, Express JS, Mongoose

Education:

- **Masters in Computer Science** *July 2018- July 2020*
  Melbourne Institute of Technology, Melbourne
- **Web Development Bootcamp/ Udemy Courses** *Oct 2022- Oct 2023*
  Complete Web Developer Course,
  Complete React Developer Course,
  JavaScript: The advanced Concept
- **IT Professional Year** *April 2022- May 2023*
  Professional Business Communication, Achieving Career Success,
  Australian Workplace Skills

Personal Projects:

❖ **Personal Portfolio Website:**
  Link: https://gaurab-portfolio.netlify.app/

- Designed and developed a dynamic and responsive personal portfolio website using HTML, SCSS, and React to showcase my skills and accomplishments.
- Integrated Email.js API for seamless communication with visitors. Focused on clean design and accessibility.

❖ **Haven Mart Shop**
  Link: https://haven-mart.netlify.app/home

- Crafted a responsive online clothing store website using React JS, showcasing an eye-catching design. Focused on user-centric design principles to enhance the overall shopping experience.
- Implemented Firebase for robust and secure database management.

❖ **Fashion Elegance Clothing Store:**
  Link: https://fashion-elegance.netlify.app/

- Designed and developed a responsive online clothing store website using HTML, SCSS, and React, to   showcase skills.
- Integrated interactive elements to elevate the user experience and engage visitors.
- Employed Firebase for efficient database management, ensuring seamless data handling.

❖ **Maxflix (work in progress)**
  Link: https://maxflixshow.netlify.app/

- Developing dynamic streaming platform resembling Netflix with React JS.
- Implemented a user-friendly interface allowing users to browse a vast collection of movies and TV shows, watch trailers, and view detailed information about each title.

Current Employment:

ICT support Officer *(Hume Central Secondary College, Melbourne)*   **August 2022- Present**

- Provide Level 1/2 ICT support to staff on the ground and remotely over the phone.
- Provide appropriate systems support, including training and pre-emptive identification and resolution of user's issues with hardware, software, networking, and other technology related problems.
- Technical services and support at the network level: WAN and LAN connectivity, routers, WAP, firewalls, and security.
- Monitoring Camera Management System and DVR maintenance.
- Prioritizing problems, troubleshooting, and exercising problem-solving skills.
